

Outstanding Teachers in a Superior Educational Environment

The teachers in our program have completed many hours of computer service. They are committed to utilizing technology and multimedia as instructional tools.

Built in 1987, Crystal Springs Elementary School is located on Jacksonville's Westside on Hammond Boulevard. Our state-of-the-art school offers the latest in interactive, multimedia computer and video technology.

For complete information or a school tour, please call Crystal Springs Elementary School at (904) 693-7645.

Crystal Springs Elementary School

A Fundamental Academy

DCP147987

Preparing Students For America's Future.

Kids are the key to America's future and computers are the tools of the time. Today, almost every job in America requires some use of technology. These are the reasons for the Fundamental Skills Program with Computer Enhancement at Crystal Springs Elementary School. Your child can travel the electronic highway to a better future.

Beyond the benefit of the future, computers capture children's attention — and keep it. Computers make learning come alive and create learning experiences that weren't possible before. Technology and education are a powerful combination.

What is a Fundamental Skills Program?

In a Fundamental Skills Program, all the basics are given extra emphasis. Our program adds two computer labs. The PC lab features the Fast ForWord Program while the iMac lab features the latest in Apple technology. In addition, Crystal Springs Elementary is a standards-based school. Our focus is on reading, writing and mathematics. Each day students will receive one hour of intense instruction in each of these subject areas.

Crystal Springs Elementary is a Smart Choice.

Where learning is FUNdamental

- Emphasis on the basic skills and academic excellence
- Computers utilized to enhance learning experience
- Clean and safe campus
- Excellent specially trained teaching staff
