

NCAA Eligibility Center

For most athletes, playing sports in college is a must. To learn more about your college experience, it is crucial that you log onto www.eligibilitycenter.com and create your account. On this website, you can learn more information about the NCAA and its divisions. The NCAA, or National Collegiate Athletic Association, includes twenty three different sports and makes the competition between these sports safe and fair. It also helps to make it easier for you to be an athlete an a student and keep balance between your academics and athletics. This website also provides you with vivid descriptions of the differences between division one, two, and three colleges. On this website, you must, first, create an account by following the simple step-by-step registration. You will be asked numerous questions that will determine your eligibility status, such as whether or not you have been paid to play on a team before. Your test scores and transcripts will be available once you have completed all the necessary steps for registration. On "your planner" you are provided with sections such as About Me and My Sports. The checked items indicate that you have completed that specific part of questions. Once all this information is given, it is then possible to view your eligibility. If you want to play a sport in college then it is important that you visit this site, create an account, and read the information that is provided. By doing this, you will be taking that next step to becoming a college athlete, and you will be making your college experience easier and more enjoyable.
