Superintendent's Message

Superintendent Discusses District's Commitment to Success

As we end the 2009 year and begin a new year, I want to take a moment to reflect on the great things that are happening in Duval County Public Schools.

There are many successes to be proud of as we move toward our goal of becoming the best large urban district in the United States. We are making academic gains and our graduation rate has risen more than 7 percentage points in the last 10 years. Duval County has increased the number of schools receiving a school grade of an A or B to 101, which is more than two-thirds of the schools that receive grades, compared to 85 last year. These gains in achievement can be attributed to the hard work of our students, teachers, principals, district support staff and community partners.

Our School Board members and I are committed to the success of every student and plan to build on the high level of support provided by our community of families, businesses, and community and faith-based organizations. Student achievement has improved and the number of students completing a rigorous academic curriculum has increased. However, we will not be satisfied until all of our students graduate ready for work and post-secondary education. Our goal is to build sustainable growth over time in order to ensure all students receive a high quality education as we continue our commitment to eliminate the achievement gap.

We also faced many challenges during the past year with the budget shortfall, and we are not out of the woods yet. This budget situation is a multiple year problem. Our district has reduced spending for this coming year by changing high school and middle school schedules, reducing transportation costs and cutting 140 district positions, resulting in more than \$36 million in savings.

We are committed to success, and it is our intent to make clear and measurable progress every year toward our long-term objectives. Through the commitment of our students, the dedication of our teachers and the support of the community, we strongly believe that together we will be successful.

Thank you for your continued support. I hope that you all have a happy and prosperous new year.

Sincerely,

Ed Pratt-Dannals
Superintendent

Did You Know?

- Did you know the number of A schools in Duval County has increased by 630%, from 10 in 1999 to 73 in 2009. The number of B schools has increased by 314%, from 7 in 1999 to 29 in 2009.
- Did you know in 2009, 79 teachers earned National Board Certification through the National Board for Professional Teaching Standards.
- Did you know Duval County's graduation rate rose to 64.3 percent in 2007/2008, an increase of almost 4 percentage points from 2006/2007 and to 67% in 2008/2009. Up to a total 10% over a 10-year period.
- Duval County Public Schools has an overall District Grade of B
- Did you know your student's progress and attendance is on the dcps Grade Portal

COMMUNITY EDUCATION*What Is Its Purpose*

- To make the best use of public owned facilities
- To mobilize community action in problem solving at the local level
- To enable the community to take an active part in the planning and operation of educational, social, and recreational programs which meet their needs and desires.
- To foster a "sense of Community" by helping its residents to develop and and organize their strengths and resources.
- To promote communication and cooperation between and with people.
- To promote individual self-improvement and an attitude of "lifelong learning"
- To promote work force preparation and skill enhancement programs
- To serve as a community center for people of all ages
