English Language Arts Curriculum Explanation

The curriculum for all 11th grade ELA classes in this district consist of SpringBoard ELA Level VI, supplemented as needed with Glencoe Literature: American Literature and Glencoe Writer's Choice: Grammar and Composition (2001). Teachers, administrators, parents and other community members are encouraged to examine this program's website, available at www.collegeboard.com/springboard.

The following is an excerpt from the SpringBoard ELA Level VI Teacher Version:

"In Level VI, the units of instruction center on an investigation of the idea of "The American Dream." Students are asked to read and think about important questions presented in American Literature—questions about freedom and justice and the pursuit of happiness. Students will read longer works of fiction [Hurston's *Their Eyes Were Watching God*, Miller's *The Crucible*] and non-fiction [Krakauer's *Into the Wild*], honing their skills of analysis and synthesis. Both creative and academic writing grows out of the reading and thinking about ideas presented in the units. Students move toward creating an Assessment Portfolio that emphasizes self-assessment in relation to standards and growth in skills.

"Embedded and continuous throughout the units, students learn and practice a variety of strategies for mastering the reading, writing, oral, and collaborative skills needed for success. The units of instruction use the College Board Standards for College Success [which have been aligned with the Sunshine State Standards and NCEE Standards—see attached] to help create a roadmap of skill-building so all students experience continuous and recursive learning experiences that emphasize and deepen students' academic powers." (p. xxiii) [inserts to quote added]

The SpringBoard ELA program provides ELA teachers with six units of thematically related activities and readings. These unit activities scaffold the students' learning in order that they are able to complete successfully the assessments (products) at the end of each unit. It is the teacher's responsibility to

- maintain fidelity to the SpringBoard curriculum,
- determine the necessary focus for each daily lesson,
- create and deliver daily lessons,
- facilitate the SpringBoard unit activities to reinforce learning and check for understanding,
- create formative and summative assessments for and of learning, and
- complete teacher reflections of each unit.

The Learning Schedules (pacing guides) for this course can be found in the Riverdeep Learning Village available at

<http://www.duvalschools.org/static/aboutdcps/departments/acadprog/riverdeep/> .

These Learning Schedules were developed and will be revised as needed by ELA teachers using the end-of-unit Teacher Reflections shared with the Academic Division of Curriculum and Instruction. It is hoped that teachers will share effective lesson plans with their colleagues through the Riverdeep Learning Village.

- Conceptual understanding

Teach words that are rich in color and texture.

Interactive Word Walls

Acrostics
