## **General Information**

The IB Diploma Programme is designed as an academically challenging and balanced program of education with final examinations that prepares students, aged 16 to 19, for success at colleges, universities, and life beyond. The program is normally taught over two years (11<sup>th</sup> and 12<sup>th</sup> grades), preceded by a specially formulated pre-IB program to prepare students for the full program (9<sup>th</sup> and 10<sup>th</sup> grades). It offers highly motivated and academically talented students a comprehensive liberal arts education that goes beyond their regular high school curriculum to challenge their intellectual, social, and critical perspectives of the world. The International Baccalaureate Diploma is recognized worldwide for college admissions and advanced standing.
