

GENERAL:

Description of Work--Extent of projection screens must be indicated on Drawings.

Types of projection screens may include:

1. Electrically operated, must be remote controlled units.
2. Manually operated units.
3. Recessed, ceiling mounted units.
4. Surface mounted units.

Metal support and trim for recessed screen installation must be detailed on Drawings. Projection screen operation must clear all existing wall-mounted accessories. Electrical wiring, connections, and installation of remote control switches for electrically operated projection screens must be included in Division 16 and indicated on Drawings.

Provide each type of projection screen as a complete unit produced by a single Manufacturer, including necessary mounting brackets, accessories, fittings and fastenings and install per Manufacturers Recommendations.

PRODUCTS:

Screen Fabric - Manufacturer's standard, flame and mildew-resistant, as follows:

1. Glass-beaded with chemical coating.
2. Non-gloss, matte white.
3. Black masking borders.
4. Standard classroom size 6'long x 8' wide.
5. Resource (Media and Cafeteria)size-- 8' long x 12' wide motorized recessed in the ceiling.

SUBMITTALS:
