

# ABC School Program

Building Business-School Partnerships  
With Duval County Public Schools

- A Business-Community (ABC) School Program encourages businesses to partner with the district to house a public school at the business site.
- The school will offer instruction from grades K-3 for the children of the employees at the site.
- The business will provide the facility space for the school and the district will provide the teachers, curriculum, text-books and other materials.

If your business is interested in submitting a proposal for this program or to find out about further partnership opportunities, please contact

Dr. Sally Hague by calling 390-2082.
