

## Math Tips for Parents

- ❖ Help your child realize that mathematics is part of everyday life
- ❖ Point out that math is needed in all careers such as carpenters, bus drivers, grocery store clerks, football players, mechanics, doctors, nurses, and teachers
- ❖ Discuss with your child how you use mathematics daily in your employment
- ❖ Show your child that you like mathematics
- ❖ Encourage your child's interest in technology
- ❖ Expect your child to succeed in mathematics
- ❖ Give your child many opportunities to find solutions to problems
- ❖ Problems can be solved in many different ways
- ❖ Sometimes it is okay to use a calculator
- ❖ Card and board games encourage mathematical thinking
