

Transition to Teaching Mentoring Program

All new teachers in Duval County Public Schools are assigned a school-based mentor. Participants in the Transition to Teaching Program are provided an additional layer of support through the use of consultant mentors. Our mentors are former DCPS classroom teachers with many years of experience. They have flexible schedules and can be available when you need them.

Consultant mentors are available for:

- *observing and conferencing*
- *identifying and helping to obtain resources*
- *team teaching*
- *coaching*
- *providing assistance with planning*
- *providing assistance with instructional techniques*
