Urban Elementary Education Apprenticeship Program 2010

If you are interested in becoming an elementary teacher in a high-need school, but have little or no background experience teaching or working with children, consider the Urban Elementary Education Apprenticeship Program.

We are excited to offer the apprenticeship through the Transition to Teaching Program in partnership with UF. It is an opportunity for individuals who are committed to teaching and making a difference in the lives of students in our high-need schools. The program offers experience and training, professional certification, and challenge!

Duval County Public Schools, University of Florida, and the Lastinger Center for Learning have partnered to provide this alternative route to certification for elementary education.

If you would like more information regarding the program or if you are interested in applying for the program, please contact Donna Stokes at stokesd2@duvalschools.org.
