

**The *Medco Pharmacy*[®]
Maintenance Drug List**

The following maintenance drug list contains medications that you may be taking on a long-term basis for conditions such as high blood pressure or high cholesterol. Your prescription plan sponsor has set a limit on the number of times you can fill prescriptions for these long-term medications (as covered by your plan) at a participating retail pharmacy before your retail co-payment increases.

Your plan sponsor may have sent you a letter explaining this change. That letter also should have included information about the cost savings you can take advantage of by using the **Medco Pharmacy** mail-order service for your long-term medications.

This drug list is subject to change, may not be comprehensive, and some of the medications on the list may also be subject to additional plan coverage rules as determined by your plan sponsor.
