

Twin Lakes Academy Middle School  
8050 Point Meadows Drive  
Jacksonville FL 32256

May, 2011

Dear Parents and Guardians:

Earlier this year, the School Public Accountability Report was distributed to give you a better understanding of the condition, focus, and progress of the school your child attends. In addition to presenting important information to parents, that report provides a basis for the School Advisory Council in formulating the annual School Improvement Plan.

As a follow-up to the report, I am now providing what the State of Florida refers to as the *School Financial Report*. On the reverse side, you will find information on the revenue available to Twin Lakes Academy Middle School last year, how the money was spent during the year, and specific costs such as the amount spent for teachers and substitutes. This data is required by Florida law to be available to parents each year.

Sincerely,

Laurie Flynn  
Principal
